How to purchase NFT tickets with a credit card

Step 1: Set up your YellowHeart NFT wallet

From a computer (non-mobile), visit yh.io and select **Connect Wallet** in the top right corner.

Step 2: Select a wallet provider

In this example, we'll select **Get YellowHeart** using **Google Chrome**. This method is easiest for payments with **credit cards**.

Step 3: Add the Google Chrome extension

Once you select **Get YellowHeart**, your browser should redirect you to the extensions page. Click **Add to Chrome** and follow the instructions. Once the extension has been added, return to yh.io and refresh the tab.

Step 4: Create a wallet account

Click the YellowHeart Wallet extension in your Chrome browser (puzzle-piece icon at the top of the browser), click **Sign Up**, and follow the steps to create your account.

Step 5: Add a credit card

Once signed up, click the puzzle-piece icon again, select the YellowHeart extension, and **Sign In**. Then, select the **Add Card** button and enter your credit card details.

Step 6: Connect your wallet to yh.io

Now that your wallet is set up, click **Connect Wallet** on the yh.io site, select the YellowHeart option again, and **accept** the connection request in your wallet.

Step 7: Purchase your NFT ticket

Go to yh.io/nft-collection/dreamverse/14 and scroll down to view available tickets. Select either the Dreamverse Party or Dreamverse Gallery ticket option, and click **Buy Ticket**. The YellowHeart extension will open up on your screen with a Pay Request. Select the appropriate payment method, then follow the steps on-screen to purchase the ticket.

Dreamverse has partnered with the digital marketplace YellowHeart for a diverse curation of innovative NFT minted VIP and General Admission tickets. Minted tickets feature artwork by NFT artist Alotta Money. Upon scanning into the physical event, the NFT Ticket will be transformed into the colored version. If you do not attend the physical event, your NFT ticket will remain colorless.

About YellowHeart:

Founded in 2017 by Josh Katz, Founder and CEO, YellowHeart is the first socially responsible live event ticketing and music NFT platform. YellowHeart is an autonomous, fully decentralized platform that runs on a public Blockchain – which enables artists and teams to identify, market, and sell directly to their fans.
